

For today's lifestyle

BONAIRE[®]

The leaders in heating and cooling

The Durango[®] Series by Bonaire, is a range of window and mobile evaporative coolers designed to provide cooling to open areas of you home to suit today's open living style.

DURANGO

Bonaire Durango® Window Cooler

The Bonaire Durango is designed to easily cool today's open plan homes with areas up to 80 square metres* It's quiet, environmentally friendly and, best of all, very economical to run. It can be easily installed into most windows and with its neutral colour, the Bonaire Durango blends in no matter what the environment.

Features:

- Cools an area up to 80 square metres*
- Easy to install
- 250mm deep low profile cabinet does not obstruct exterior area
- Powerful three speed fan motor
- Direct drive fan motor
- Transition duct supports the unit without any need for additional structural support
- UV stabilised polymer cabinet will never rust
- Neutral grey colour blends with almost any decor
- The cool ventilation mode allows the choice of water flow cooling or just fan operation

Replace your expensive window refrigerated air conditioner with an economical to run Durango Window evaporative cooler.

Affordable, easy to maintain
and very economical to run.

Running costs from as little
as 60 cents per day*

*Based on 8 hours of running @35 cents per kW/h #Depending on geographic location, unit position, room heat gain, and 2.4m ceiling height @ 25 air changes per hour.

Bonaire Durango® Mobile Cooler

The Durango Mobile cooler from Bonaire is a compact evaporative cooler which can be easily wheeled whenever and to wherever it is needed to provide the ultimate in outdoor cooling comfort.

The Durango Mobile cooler is designed to cool an area of up to 80 square metres* so it is perfect for large outdoor entertaining areas, workshops, restaurants and cafes with outdoor areas, event marquees or any other area that requires spot cooling. The Durango Mobile Cooler is quiet to run, friendly to the environment, and economical to purchase and operate.

Features:

- Cools an area of up to 80 square metres
- No installation just plug into a power point and attach a hose and you are ready to go.
- Built in float valve automatically switches water off when connected to a hose
- Large 60 litre water tank that means it does not have to be constantly refilled if not connected to a hose.
- Suitable for both residential and commercial applications
- Easy to wheel around - comes with robust heavy duty casters
- Powerful three speed direct drive fan motor
- Neutral Grey colour blends with almost any decor
- UV stabilised polymer cabinet will never rust
- The cool/ventilation mode allows the choice of water flow cooling or just fan operation
- Economical to run

The perfect solution for spot area cooling.
